College of Agriculture
and Bioresources

DEPARTMENT OF PLANT SCIENCES
AGBIO.USASK.CA

MSc Position in Plant Insect Interactions

The Prager Lab (in the Department of Plant Sciences in the College of Agriculture and BioSources at the University of Saskatchewan) has funding for a MSc student to work on a fully funded project examining the host choices and biology of Aster Leafhoppers on crop plants and common weeds. The project will be conducted in collaboration with Drs. Tyler Wist and Chrystel Olivier at Agriculture and Agri-food Canada. The successful candidate will have strong quantitative, writing, and laboratory and/or field skills. Interested candidates should email Dr. Prager (sean.prager@usask.ca).

Details on the Prager lab can be found at <http://research-groups.usask.ca/entomology/>

Details on the department of plant sciences can be found at <https://agbio.usask.ca/departments/plant-sciences.php>

The University of Saskatchewan is located in Saskatoon, Saskatchewan, Canada on the banks of the South Saskatchewan River. Saskatoon is a city of 260,000 people with a diverse and thriving economic base, a vibrant arts community and a full range of leisure opportunities. The university has a reputation for excellence in teaching, research and scholarly activities, and offers a full range of undergraduate, graduate and professional programs to a student population of about 21,000. The university is one of Canada's leading research-intensive universities.
